**Name:** Ken Robinson  
**Education:** BSc (Hons) (Theoretical Chemistry)  
Chartered Accountant (SA)

## **GENERAL EXPERIENCE**

Ken Robinson is a senior executive in Accenture's Utilities Practice specialising in Operating Models, Industry Structure, Performance Management and Process.

He has managed major process, information system and strategic change projects for clients across many industries, especially in public sector electricity and private sector oil and gas.

Key achievements in his consulting career have included: major influence on Government policy on electricity industry structure, initiator of the concept of BEE scorecards and the concept of "equity equivalents", and transformation of financial management through new processes, systems, organisation structure and culture in a major organisation.

## **ORGANISATIONS**

Institute of Management Consultants of South Africa, former President.

South African Institute of Chartered Accountants, member.

South African Mensa, member and former National Auditor.
